Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

The present invention pertains a method and a program for testing a combinational and sequential logic circuit with shift register latches of individual logic units.

The prior arts do not teach performing simulation testing by shifting a plurality of pseudo random pulse patterns though at least one of the cores and simultaneously performing simulation testing in other of the at least two cores using a weighted pseudo-random pulse pattern, then changing switching the cores subjected to the testing of the pseudo-random and the weighted pseudo-random test patterns so that the pseudo-random and weighted pseudo-random test patterns are applied to all cores. Hence, the prior arts of record do not anticipate nor render obvious the claimed inventions. Thus claims 1-12 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine T. Tu whose telephone number is (703)305-9689. The examiner can normally be reached on Mon-Thur. 8:30am-6:00pm.
